Origami Rhododendron

Materials:

- 5 sheets of origami paper
Tip: You can also recycle and use colourful magazines, catalogues or used gift wraps! Just cut them into squares.
- Double-sided tape

Did you know?

The rhododendron derives its name from the Greek words for 'rose' and 'tree'. These mostly evergreen plants are cultivated mainly for landscaping purposes as they have ornamental leaves and fragrant flowers that come in attractive colours.

Rhododendrons vary greatly in height. They range from woody shrubs as short as 40cm to trees as tall as 30m!

Origami Rhododendron

Step 7

Repeat steps 1 to 6 four times until you have 5 individual pieces. Apply double-sided tape on all 5 pieces and join them together to form a rhododendron.

Tada, you are done!
